EDUCATION

Data Analytics (B.S.)

Arizona State University
W.P. Carey School of Business

📅 05/2022 - 05/2025

GPA
3.84 / 4.0

- Dean's List
- Beta Gamma Sigma Honor Society

EXPERIENCE

Data Tracking Operator

Milwaukee Brewers

📅 03/2024 - 09/2024

- Ensured accurate, high-quality data collection using baseball technology systems like Hawk-Eye and KinaTrax.
- Assisted with on-field data and video collection that takes place at the Brewers complex in Arizona during Spring Training, Extended Spring Training, Arizona Complex League season, and Instructional league.
- Collaborated with Coordinator – Technology Operations, Player Development & High Performance to review, edit, and catalogue amateur and international scouting video for priority players.
- Assisted the Scouting Department with the 2024 MLB Draft.

Baseball Research Internship

Society of American Baseball Research (SABR)

📅 02/2024 - 05/2024

- Working with the Director of Editorial Content and Publications Director to help publish and produce content for SABR.org.
- Working with SABR staff members on organizational duties, membership renewal drives, and customer service.
- Assisted with the SABR Analytics Conference.

Apprenticeship - Baseball Analytics, Player Development, Scouting, and General Management

Sports Management Worldwide

📅 11/2023 - 03/2024

Mentored by Dan Evans, Hank Jones, Ari Kaplan, and Dan Duquette

- Wrote scouting reports on high school, MiLB, and MLB players.
- Identified traits and utilized proper grading technique.
- Learned about the Collective Bargaining Agreement and Arbitration.
- Constructed predictive models that accurately forecast player performance in future seasons.
- Used Python, R, and SQL to solve complex baseball problems.
- Learned major league management strategies for spring training, regular season, and postseason baseball.
- Player conditioning and coaching techniques for all levels.

PORTFOLIO WORK

Cincinnati Reds Analytics Hackathon

Big Red Machine Learning

Video Demonstration:
